

Setting the Home Page in Safari or Firefox

You can set this new location as the Home Page in your browser so that when it is launched, this page will always open.

1. Go to the site to set as your Home Page:

Office staff: <https://batesville.powerschool.com/admin/pw.html>

Teachers: <https://batesville.powerschool.com/teachers/pw.html>

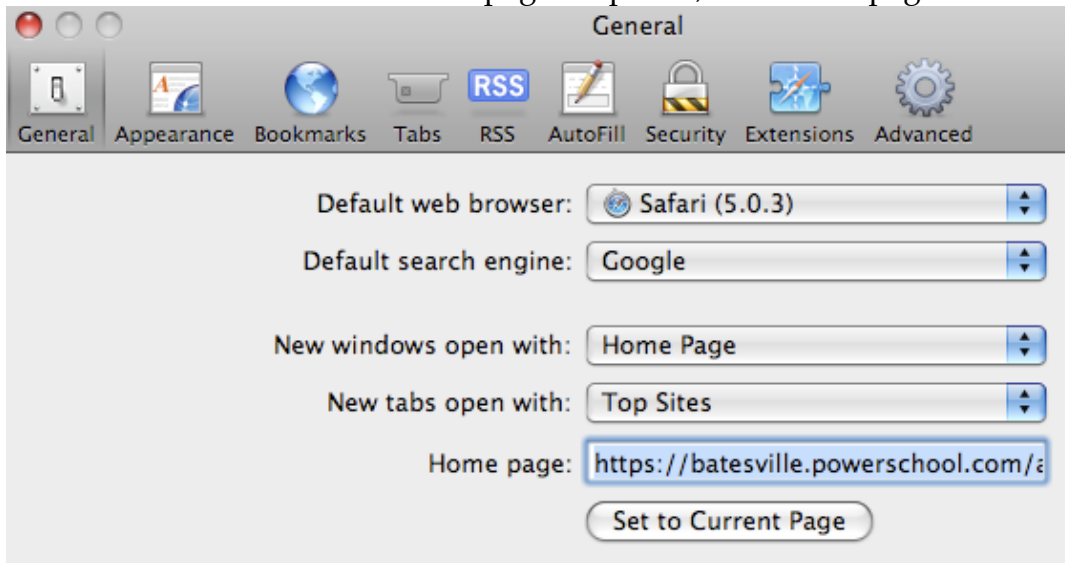

2. In **Safari:**

Go to Safari - Preferences

In the General Tab - select 'Set Current to Page'

Close Preferences window

When Safari is launched or a new page is opened, this Home page will always load.

3. In **Firefox:**

Go to Firefox - Preferences

In the General tab, choose 'Use Current Page'

Close the Preferences window

When Firefox is launched or a new page is opened, this Home page will always load.
