Parent Technology Tools

Batesville Community School Corporation provides tools for teachers, students and parents to improve productivity and communication in the classroom. Two of the tools include PowerSchool and Canvas. Below you will find information regarding each and how you can use them to access helpful information.

PowerSchool is a powerful tool to increase communication regarding student performance, allowing parents and students real-time access to grades, attendance, and other important information. The grades in PowerSchool are used to calculate the student semester report card grade. *Students in grade 6-12 have student accounts to monitor their grades throughout the school year.*

- **To log in or create a PowerSchool Parent Account:** <http://powerschool.batesville.k12.in.us>
- **PowerSchool Parent Account information:**

Canvas is the learning management system used in the classroom for teachers to share Announcements, Discussions, Resources, Assignments, and Quizzes with the students. The students can access classroom content, communicate with teachers, submit assignments, and take online assessments. With a Parent / Observer Account, you can see course information, resources, and events for your student. *Refer to PowerSchool for official grades.*

- **To login or create a Canvas parent account:** <https://batesville.instructure.com>
- **Canvas Parent Account information:**

- **Additional resources:** <http://help.instructure.com>

Parent Technology Information Sessions will be held on the following evenings at **Batesville Intermediate School.**

- **Monday, November 9** – 6:00 – 7:00
- **Wednesday, November 18** – 6:00 – 7:00

During the sessions, parent access to Canvas and PowerSchool will be reviewed. The computer lab will be available after the session to log in or set up your parent account.

For more information or assistance, please contact Jackie Huber at jhuber@batesville.k12.in.us or 812-932-4062
