Introduction

The purpose of the Respectable Use Policy is to foster and support creativity and innovation in the pedagogical shift from a traditional teaching model to guiding, facilitating, and exploration infusing technology to meet the needs of learners with ranging abilities, backgrounds, and populations in the Batesville Community School Corporation (BCSC). BCSC offers students and staff access to electronic devices and the Internet as an element of the instructional program. The Respectable Use Policy establishes and maintains guidelines and procedures for appropriate technology utilization and infusion in the classroom, in the schools, and district administration. These procedures allow for planning and evaluation to more effectively prepare students for the transition from school to work for success in the workplace and to improve the operations of the school district.

BCSC recognizes how valuable the appropriate use of technology is to improving teaching and learning. Accordingly, BCSC has made a significant commitment to integrating technological advances into the school program to enhance students' learning experiences. BCSC provides access to the school's Internet services from every mobile device connected to the network.

The purpose of BCSC provided Internet access is to facilitate communications in support of research and education. To remain eligible as users, student and staff use must be in support of and consistent with the educational objectives of BCSC. **Access is a privilege, not a right, and entails responsibility.** BCSC will take reasonable precautions (including filtering) to provide Internet security and ensure that Internet access is consistent with the educational objectives of the school corporation.

It is important to understand that no filtering system is perfect. Due to the nature of the Internet and evolving technology, even with supervision, BCSC cannot guarantee that students will not reach an inappropriate site. It is the student's responsibility to report any inappropriate site to an adult.

Information and Services Disclaimers

BCSC makes no warranties of any kind, neither expressed nor implied, for the Internet access it is providing. BCSC will not be responsible for any damage users suffer, including but not limited to, loss of data resulting from delays or interruptions in service. BCSC will not be responsible for the accuracy, nature, or quality of information gathered through the provided Internet access. BCSC will not be responsible for unauthorized financial obligations resulting from the provided access to the Internet.

Utilization:

All use of technology services shall be consistent with the mission, goals, policies, and priorities of BCSC. These rules are to be followed to prevent the loss of network/computer/Internet privileges. All users are responsible for their actions and the consequences if violated.

21st Century and Digital Web 2.0 Tools:

In order for schools within the Batesville Community School Corporation to provide your child with the most effective tools for learning, our district utilizes several computer and iPad applications and web-based services managed and operated not only by BCSC but also by third parties. Under federal law entitled *Children's Online Privacy Protection Act (COPPA)*, these third parties must provide parental notification before collecting information from children under the age of 13.

The law permits schools to consent to the use of the web sites or applications on behalf of the students, thereby eliminating the need for individual parental/guardian consent. For your reference, a complete and regularly updated list of programs can be found on the BCSC Technology Website: <http://batesvilleinschools.com/wp-content/uploads/2013/07/BCSC-COPPA-App-web-site-list-16.pdf>

While the most restrictive COPPA regulations apply to children 13 years of old and younger, we are strongly interested in protecting the privacy of our students. Therefore, we are sharing this information with parents of

students in all grade levels K-12. For more information on COPPA, please visit <http://www.ftc.gov/privacy/coppafaqs.shtm>.
