

IS YOUR CHILD AT RISK FOR SUDDEN CARDIAC ARREST?

Don't Miss Your Chance to Find Out!

Sudden Cardiac Arrest (SCA) is a life-threatening emergency that often occurs with no warning. SCA isn't a heart attack.

SCA strikes people of all ages who seem healthy, including children and teens.

Knowledge is power. A cardiac screening detects underlying abnormalities, so you and your child can take precautions.

PROTECT YOUR CHILD'S HEART AND LIFE.

Sign up now for your screening [here](#).

SE INDIANA YMCA 30 State Rd 129 S, Batesville, IN 47006

DATE: October 11, 2024

TIME: 8:00 AM - 4:00 PM

LOCATION: Conference Room

DONATION: \$15 thanks to the generosity of Giving Hearts a Hand

Screenings are sponsored by MCORE Foundation, a nationally-recognized non-profit dedicated to preventing SCA in youths and young adults through education, screening, and research.

SCREENING DETAILS:

- Each student will receive an electrocardiogram (ECG) and limited echocardiogram performed by a registered cardiac sonographer
- Results are read by pediatric cardiologists
- Each test lasts around 10-12 minutes
- Images are stored in your secured account for future access
